I currently work as a Freelance Web Developer. Web development is my true passion, and I find immense joy in creating websites that are not only innovative but also user-friendly. Over time, I've had wonderful opportunities to contribute to a variety of freelance projects as a Full Stack Developer.

Through my journey as a Freelance Web Developer, I have become well-versed in using technologies like Laravel, Vue.js, Typescript, and MySQL. Yet, despite my proficiency across full stack development, my heart lies in front-end development, an area that I am particularly drawn to and enthusiastic about.

Experience

Full-Stack Developer Intern at PT. Baracipta Esa Engineering

2022

- Collaborated effectively within a team as a Front End Developer.
- Contributed to the development of a marketplace website for Estimator.id, focusing on property sales and services within the construction field.
- Utilized technologies such as CodeIgniter, JQuery, Bootstrap, and MySQL for the project.
- Gained practical experience in building and consuming REST APIs.
- Developed proficiency in working with the Midtrans API, enhancing my technical skill set.

Freelance Web Developer

2021 - present

- Developed a Project Management App for PT. Laras Sembada, utilizing Laravel, Vue.js, Typescript, and MySQL.
- Created a New Student Admission system for STMIK Mercusuar, implementing Laravel, Tailwind CSS, and MySQL.
- Designed an E-KTM (Electronic Student ID) system for STMIK Mercusuar Students, utilizing Laravel, Vue.js, and MySQL.
