📍 Bekasi, Indonesia

I have a Bachelor's degree in Computer Science from Bina Sarana Informatika University, actively seeking a job opportunities in DKI Jakarta as either a Front-End or Back-End Developer. With a solid foundation and 2 years of freelance experience as a Full-Stack Developer, I am prepared to apply my skills in web development, using technologies such as Laravel, Vue.js, Typescript, and MySQL. I am a fast learner and excited to contribute to the development of websites.

Check out my portfolio at dev.aprizqy.com.

Experience

Freelance Full-Stack Developer

Apr 2021 - Dec 2023

Key projects:

- Building a Project Planning Management Website for PT. Laras Sembada, with RAB and RAP management features, Fund Submissions, Fund Disbursement and Financial Reports features.
- Create a new student admissions website for STMIK Mercusuar with features: registration submission, selection test, re-registration, and notification via email.
- Create an E-KTM (Electronic Student Identification Card) website using a QR Code to verify student identity.
